Use of material in research

PatoGen works continuously to improve LiceAdvisor, and further research and development will be essential to maintain the quality of this service. PatoGen therefore reserve the right to use samples of sea lice submitted for LiceAdvisor analysis, and information linked to this, for research purposes in anonymised form. PatoGen shall also be able to make information and biological material available to our research partners at the same terms.

Note

Date and sampler's signature

See www.patogen.com for our general terms of delivery, sampling guides and more.

NB: All LiceAdvisor samples are to be sent to Ålesund, not Bodø.
